 **We are
PROPS!**

PROPS, help and support anybody impacted by someone else's drug or alcohol use.

The charity was founded in 1997 because of local women's concerns about absence of support for families. PROPS initially began as a peer support meeting and quickly evolved into a group of active citizens with enough confidence to take action on social issues surrounding drug and alcohol misuse, in particular the emotional, health and economic effect on carers.

In a relatively short space of time PROPS grew from a small community group to a charity which has helped thousands of families from the North East and beyond.

We offer practical help and emotional support for families of drug and alcohol users. Our structured programmes including evidence based Community Reinforcement Approach and Family Training intervention (CRAFT). This internationally renowned program is delivered by a team of qualified and experienced practitioners. Our tailored approach ensures individuals receive the support that meets their specific needs.

As a charity, we rely on fundraising to make sure that our service is able to provide the best possible support. We are proud of the difference we have made to the lives of our carers over the last 29 years and we hope we can continue this with your support.
